

Sitewatch[®] Anywhere

Cloud Based Telemetry

The Benefits

Improve Performance and Reduce Downtime.

- **Cloud Based** application for use on any PC, tablet or smartphone.
- Instant access to **Live** and **Continuous Monitoring** of all your assets.
- **Animated Mimics** and dedicated **Alarm Manager**.
- **Email** and **SMS Alerts** and **Alarms**.
- **Historical Graphs** and **Predictive Analysis**.

A Low Cost Telemetry Solution.

Subscription options mean any size of business can now afford remote monitoring and control. **Sitewatch Anywhere** offers unlimited scalability and flexibility meaning your Telemetry can be developed at a rate that suits your needs and budget.

Standard

Professional

Enterprise

Tiered Accounts offer additional benefits including **discounts** on Telemetry hardware & day rates.

Capital and Operational Cost Savings.

No Capital Outlay
for Servers or
Infrastructure

**No hardware or
Software
obsolescence.
Future Proof**

**No
Software
Licences**

**No in-house IT
needed for System
Maintenance**

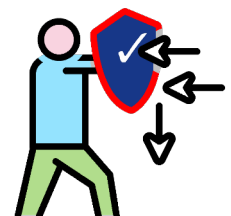

Industry now prefers Cloud-Based monitoring for key services, favouring the subscription based model over a costly in-house solution.

For a **small annual subscription** to **Sitewatch Anywhere**, a business can hand responsibility for the day to day operation and support of its Remote Control and Monitoring to the **Telemetry Experts**.

Keep your Data Secure.

SSL certification ensures your data has **military grade** protection from end to end.

For increased protection, Lee-Dickens routes your Telemetry data using a Private Access Point Node via a Private Virtual Network.
